welcome to my news artical

Covid 19 started in 2019 and since then it has been going on till this day.

Covid 19 or corona virus is a dangerous virus for everyone it is dangerous because it make you forget things and makes your lung weaker later in this artikel i will list what corona can do. You can also readabout <u>Covid on schools</u>

Here is the list list:

- •it depletes your lung capacity
- •it makes you forgetfull
- •it can kill you

covid is dangerous and can kill you

Covid on schools

when a covid have hit a land it forced the schools to close for lockdown and then they couldt do eather make a extra vacation or do online school when online school happend everyone should have a computer so that they can join the online clas.
